

Fractions

finding equivalent fractions

Colour the parts that are equivalent to the shaded part. Then write the fractions.

$$\frac{1}{2} = \frac{\quad}{4} = \underline{\hspace{2cm}}$$

$$\frac{6}{9} = \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

Write fractions to show the shaded and unshaded parts. Then write two equivalent fractions for each.

Shaded: _____ ; _____

Unshaded: _____ ; _____

Shaded: _____ ; _____

Unshaded: _____ ; _____

Shaded: _____ ; _____

Unshaded: _____ ; _____
