

# MIDWAY REVIEW

**Look at the map and solve the problems.**

- ⑬ Dave travels from Abbeyville to Beaufort in 8 hours. What is his average speed?

*Answer :* \_\_\_\_\_

- ⑭ If Dave sets off from Abbeyville at noon, when will he reach Capetown?

*Answer :* \_\_\_\_\_

- ⑮ Eric travels from Beaufort to Abbeyville in 6 hours. What is his average speed?

*Answer :* \_\_\_\_\_

- ⑯ If Eric sets off from Beaufort at noon, when will he be 50 km beyond Capetown?

*Answer :* \_\_\_\_\_

- ⑰ If Dave and Eric set off from Abbeyville together, how far apart will they be after 3 hours of travelling?

*Answer :* \_\_\_\_\_

- ⑱ Dave sets off from Abbeyville and Eric sets off from Beaufort at the same time. Will they meet after 3 hours of travelling?

*Answer :* \_\_\_\_\_

- ⑲ Jim travels from Beaufort to Abbeyville at an average speed of 30 km/h. If he sets off at 7 a.m., will he reach Capetown by noon?

*Answer :* \_\_\_\_\_

**Use the table below to solve the problems.**

| Population by Age Group (1998) |            |           |            |           |              |
|--------------------------------|------------|-----------|------------|-----------|--------------|
| Province                       | Canada     | Quebec    | Ontario    | Manitoba  | Saskatchewan |
| Number (correct to 100s)       |            |           |            |           |              |
| <b>All ages</b>                | 30,301,200 | 7,334,500 | 11,413,600 | 1,138,700 | 1,024,300    |
| Male                           | 14,998,900 | 3,617,100 | 5,625,100  | 564,400   | 509,500      |
| Female                         | 15,302,300 | 3,717,400 | 5,788,500  | 574,300   | 514,800      |
| <b>0 - 14</b>                  | 5,975,800  | 1,357,200 | 2,282,800  | 243,800   | 227,600      |
| Male                           | 3,064,100  | 693,600   | 1,171,200  | 125,000   | 116,500      |
| Female                         | 2,911,700  | 663,600   | 1,111,600  | 118,800   | 111,100      |
| <b>15 - 64</b>                 | 20,588,300 | 5,065,800 | 7,711,500  | 739,700   | 647,700      |
| Male                           | 10,345,600 | 2,549,600 | 3,849,300  | 374,200   | 328,100      |
| Female                         | 10,242,700 | 2,516,200 | 3,862,200  | 365,500   | 319,600      |
| <b>65 and over</b>             | 3,737,100  | 911,500   | 1,419,400  | 155,200   | 148,900      |
| Male                           | 1,589,200  | 373,900   | 604,600    | 65,300    | 64,900       |
| Female                         | 2,147,900  | 537,600   | 814,800    | 89,900    | 84,000       |

- ⑩ What percentage of Canadians live in Ontario? (correct to the nearest 0.1%)

*Answer :* \_\_\_\_\_

- ⑪ What percentage of Canadians are female? (correct to the nearest 0.1%)

*Answer :* \_\_\_\_\_

- ⑫ Which one of these provinces - Quebec, Ontario, Manitoba or Saskatchewan - has the youngest population? Explain.

*Answer :* \_\_\_\_\_

- ⑬ Write the population of Canada in scientific notation. (correct to 1 decimal place)

*Answer :* \_\_\_\_\_

- ⑭ Does the percentage of male Canadians remain the same for different ages? Explain your answer.

*Answer :* \_\_\_\_\_
