

# Plants

**A. Read the story and answer the questions.**

Plants are living things. They make their own food. They need light and water. Most plants get light from the sun and water from the rain. Light and water make plants grow.

1. What are plants?

---

2. Who makes food for plants?

---

3. What two things do plants need?

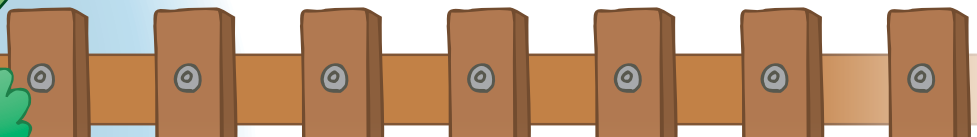

---

4. Where do most plants get light?

---

5. Where do most plants get water?

---
